In *Crossing and Dwelling: A Theory of Religion*, Thomas Tweed expands on his previous work observing diasporic Cuban communities’ religious practices to establish a definition of religions as relational and dynamic. He writes, “Religions are confluences of organic-cultural flows that intensify joy and confront suffering by drawing on human and suprahuman forces to make homes and cross boundaries” (Tweed, 2006, 55). Although Tweed describes migration narrowly as a “terrestrial crossing,” this is just one example of these “organic-cultural flows.” We invite you to think more expansively about migration(s) beyond terrestrial, corporeal, and even human crossings.

The theme of migration conjures images of mass migrations--humans fleeing famine, oppressive regimes and/or war. Such mass movements of entire populations (human and non-human) are transformative not only for those who leave but also for the places they go and the people and places they leave behind.

But beyond mass physical/geographical movements, the theme of migration applies to personal socio-cultural transformations as well as more esoteric migrations. From the Babylonian exile to the transmigrations of souls, this theme is meant to evoke a sense of movement---of crossings and transitions, of hardship and promise, of beginnings, ends, and the intervals in between—that will resonate broadly with our program units. Whether taken literally or metaphorically, we hope that our units think broadly about what “migrations” mean for their particular fields and develop panels that will expand on the theme accordingly.

Key Information for Participants

Program Information: The AAR Southeast Region’s website is https://relse.org and will have a link to the most up-to-date program

Registration: Register for this event and reserve lunches at https://www.eventbrite.com/e/441050091697

Conference Location: All events will take place on Mercer's Cecil B. Day Campus in Atlanta. The address is Mercer University, 3001 Mercer University Drive, Atlanta, GA 30341

Hotel: Conference rate is $149/night and includes parking, Wi-Fi, and breakfast daily. Marriott Atlanta Northeast / 1 Emory Area | 2000 Century Boulevard NE | Atlanta, GA 30345. The Marriott Century Center in Atlanta is conveniently located within a 10-minute drive to Mercer. We have a conference rate of $149/night for our group. Make your reservation before February 24th using this link: https://www.marriott.com/event-reservations/reservation-link.mi?id=1674145733504&key=GRP&app=resvlink. You may also call the hotel directly and let them know you are part of the American Academy of Religion Southeast Region Conference at Mercer University if you have trouble with the link.

Airport: Atlanta's Hartsfield International Airport (ATL) is the closest major airport. The airport is approximately 25 miles from campus, but the drive can take anywhere from 30-45 minutes, depending on traffic. Public transit is available, but it does not directly connect travelers to the hotel or campus, so consider using a ride share service or renting a car.

Dr. Nicole Symmonds is the Visiting Assistant Professor of Christian Ethics at McAfee. Dr. Symmonds earned her B.S. in Journalism from Florida A&M University (2002) and an M.Div. with a focus in theology and ethics at the Candler School of Theology (2013). She comes to McAfee from Emory University, where she earned a Ph.D. in Ethics & Society (2021). She teaches courses in the foundations of ethics and sexual ethics.

Dr. Symmonds’s research interests include Christian anti-trafficking work, womanist responses to commercial sex work, sexual ethics in popular culture and society, and Christian social ethics and ethnography. Her research seeks to merge normative concerns within Christian ethics with a liberative commitment to women, gender, and sexuality, especially Black women’s experience of embodied agency. Her current research, which is an expansion of her dissertation, explores the role of Evangelical Christian whiteness in anti-trafficking work performed in urban contexts. In this exploration, she identifies how faith-based anti-trafficking work conducted by Evangelicals is often done to buttress Christian religious values and commitments more than it secures freedom for women involved in the commercial sex trade. In claiming that this falls under the auspices of an Evangelical whiteness, Dr. Symmonds points to a phenomenon particular to white Christian spaces that embraces a limiting perception of purity and morality rooted in a history of racialization.

She has a co-authored article in the Journal of the Society of Christian Ethics and a forthcoming chapter publication with Routledge. Dr. Symmonds holds membership in the American Academy of Religion, the Society of Christian Ethics, and the Black Catholic Theological Symposium. Dr. Symmonds’s teaching experience ranges from undergraduate religious studies courses at Emory University to graduate courses at the Candler School of Theology and Christian Education classes taught at several Atlanta area churches.

Methods and Theories in the Study of Religion II
Panel Discussion: Challenges of the Small Religious Studies Program
Because there are a large number of religious studies programs in the US that employ less than a handful of faculty, this panel focuses on the current challenges to such programs, from regularly delivering a sufficient variety of courses and developing a minor (or perhaps a major) to securing tenure-track faculty lines and the role of local, contingent labor in delivering their courses. Given that many of these programs are housed within philosophy departments or cross-disciplinary humanities programs, the challenge of representing the field to those who were trained outside of it—and who might therefore have their own sense of how religion can be studied in the academy—will also be a focus of the discussion. This panel—comprised of faculty now working in just these settings—aims to be a resource to others already working in such units and also a primer on some of the practical conditions of the current field for graduate students hoping to establish careers in academia.
